DEAR READERS,

The spring season is off to a particularly exciting start for our industry this year, as numerous market players from all over the world will be coming together in sunny Barcelona at the beginning of May to present the latest erotic innovations to trade visitors at EroSpain. On page 32, you can already find out what you can look forward to at this year's show in Spain.

One person you are sure to meet at the show is Patrick Kruijs, SHOTS' brand ambassador for the Doc Johnson brand. He represents all the Doc Johnson sub-brands that SHOTS distributes exclusively in Europe. In our Personality Talk on page 52, we got to know what drives Patrick in his job and what career path led him to SHOTS.

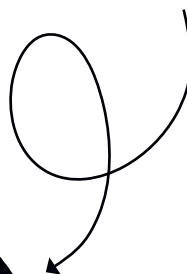

The Dutch company Tonga and America-based XGEN Products also report on their successful international cooperation in this issue. The synergy between Tonga and XGEN was palpable at Altitude in Las Vegas, where Tonga had the privilege of presenting its products to the demanding American public at the XGEN booth. All further information can be found on page 96.

In addition to that, we put a spotlight on the Womanizer brand, as it took center stage in the third season of the Netflix series "Risque Business", where an entire episode was dedicated to the brand's journey. Find out more on page 94.

There is also news from the Polish lingerie brand Obsessive, which has rebranded its products and unveiled a refreshed logo and a sleek new packaging, as well as from SVAKOM, whose team has gained a new account manager for the West Coast in Topher.

We also have news from SCALA, Lovecherry, Rimba, Concorde, ST Rubber and many more in this issue.

We wish all of our readers, friends and partners a successful month of April!

Cerritos, CA, USA

Sportsheets, a global leader in bondage products, is delighted to announce the success of their participation in the Altitude Intimates show. Breaking away from the norm, the company presented at their own dedicated booth for the first time in years, complemented by a presence at various partner distribution booths. This strategic move allowed Sportsheets to engage with a diverse range of customers, both existing and potential, offering them a comprehensive view of nearly every SKU within their extensive catalog. Taking place at the Paris Hotel and Casino in Las Vegas from February 26th to 28th, the Sportsheets team not only rekindled relationships with industry friends and customers worldwide but also capitalized on the opportunity to showcase their full range of products, a departure from the recent focus on unveiling new items. Kelly Sofferman, Commercial Director, reflects on the experience, stating, "While it wasn't our debut at Altitude, it marked our return. Entering this arena not only provided invaluable

insights into our customers' operations but also sparked meaningful conversations that will contribute to our growth not just this year, but beyond." The Sportsheets booth proudly featured all four of their distinct brands (Sportsheets, Sex & Mischief, Sincerely, and Edge), with special emphasis

The ingenious grooved structure inside the opening keeps the lubricant in place – even during the wildest up and down movements. In addition to its innovative shape, the MANTA also impresses with its versatile handling: users can easily pamper the glans with the pincer opening during solo sex or guide the vibrating masturbator along the shaft with pleasure. For the ultimate blowjob, users simply need to place the toy at the base of their penis. Then all you have to do is lean back and enjoy the unique combination of deep throat and vibration. REVISITED STAPLES

Presenting the Revamped Kissable Massage Powder and Garden of Edo Collection

Two of SHUNGA's first ever released products, the Sweet Snow Edible Body Powder and the Garden of Edo Collection, are getting a makeover!

These improvements are aligned with SHUNGA's vision of actualizing the look and feel of the brand throughout its line of products. In the past year, the Kissable Bath and Shower Gel was also revamped and is now offered in a new transparent bottle.

Kissable Massage Powder

Previously offered in a black tin, the new packaging features beautifully coloured boxes that match the four fruity flavours. The eye-catching box contains a coloured feather tickler adorned with a delicate black ribbon embroidered with the golden SHUNGA logo. The 2.65 oz of powder is stored in a transparent container equipped with a sifter for a great controlled pour, enhancing the playful experience by making it mess-free. The favoured Sparkling Strawberry Wine and Raspberry Feeling flavours will continue to be offered in the new packaging, while two new exotic aromas are making their debut: Coconut Thrills and Luscious Mango. Sure to please everyone's tastes buds!

Endless possibilities

To highlight the versatility of the product, the revamped version is now named Kissable Massage Powder. "We wanted to make sure the consumer understands all the possibilities that this product offers. It can be used for a soothing dry massage, sprinkled in the bedsheets for a moist-free love session, enjoyed as a sweet desert on your partner, or even used as a daily drying powder to keep the body cool. The possibilities are endless!", says Linda McLean, Sales Representative.

Great gift appeal

The giftable appeal of the new packaging now becomes a major selling point. "We are eager to get the new Kissable Massage Powders on the shelves. We strongly believe this product makeover will result in increased sales for this product category. The new look and feel is completely different and more aligned with the entirety of the SHUNGA line", says Louis-Philippe Roussy, Marketing Director.

Garden of Edo Collection

The Garden of Edo Collection has also gotten a fresh new look! Previously offered in a tall black tin, the modernized version of the collection is now presented in a beautiful standing erotic green box adorned with the SHUNGA Erotic Art couple on the front, for nature lovers to recognize on the shelves. The new Garden of Edo Collection contains the perfect combination of products for an idyllic evening of love : one ORGANICA Green Tea Kissable Massage Oil (8 fl. oz / 240 ml), a Warming Green Tea Aphrodisiac Oil (3,5 fl. oz / 100 ml), a Zenitude Green Tea Massage Candle (1 fl. oz / 30 ml), a TOKO ORGANICA Personal Lubricant (5,5 fl. oz / 165 ml) and a Lotus Noir Sensitizing Gel for lovers (2 fl. oz / 60 ml). In this new packaging, the Lotus Oriental Crystal Bath Salts were replaced by a small Exotic Green Tea Candle to set the mood. "Some

of our European customers mentioned that baths were not common in every European household, depending on the location. That being so, we decided to replace the bath salts with a universally usable clients' favorite: A Massage Candle", says Kim Chanel Vallée-Séguin, Business Development Director.

Don't miss out!

"The new Kissable Massage Powders and the revamped Garden of Edo Collection will be available in March 2024 in all major European, American, and Canadian distributors of SHUNGA", says Guy Roussy, General Manager.

Complementing this is the rabbit itself, equipped with seven functions of vibration, pulsation, and escalation. The flickering bunny ears are expertly crafted to provide pinpoint stimulation, ensuring that the user's pleasure is both deep and powerful. It is a luxurious intimate delight, designed for those who seek both the familiarity of classic pleasure and the thrill of new sensations. At the forefront of this remarkable toy are seven functions of superior vibrating action. Each setting is carefully crafted to deliver deep, powerful vibrations that resonate through the entire shaft. These sensations are beautifully complemented by the flickering bunny ears, a hallmark of the Jack Rabbit experience, providing external stimulation that's both gentle and intense. But what truly sets this anniversary edition apart is the inclusion of seven functions of intimate suction in the rabbit. This feature offers a unique sensation, mimicking the most attentive oral caress. Get to know SHOTS' Brand Ambassador

PATRICK KRUIJS

As one of the latest SHOTS family members, Patrick Kruijs is joining the team as the new Brand Ambassador of the popular Doc Johnson brand. He represents all sub-brands of Doc Johnson that SHOTS sells exclusively in Europe, including Main Squeeze, Fort Troff and Vacu Lock, for example.

Patrick started his career in the hospitality industry. After graduating, he worked in various hotels and restaurants both at home and abroad. When he sold his own café/restaurant, he started living and working in Nijmegen, leaving the hospitality industry at 26 and starting working in sales. First as a salesman of energy contracts, then as an account manager in the ICT branch and finally as sales manager at the hospitality partner of football club N.E.C. Nijmegen. In our interview, he told us about what drives him in this job.

01 *What experience do you have that will help you to successfully communicate the SHOTS message and products?*

Infinite enthusiasm and eagerness to learn. Through my years in the hospitality industry, I learned how best to deal with people and how to “read” certain characters.

02 *What motivated you to become a brand ambassador for SHOTS?*

It has always attracted me, working in this industry. So when I learned that there was a position open for Ambassador, I contacted Hein and we started the application process. There were a number of other candidates for the position, so I was very happy that they chose me!

03 *How do you plan to represent and publicize SHOTS and its brands in your role as brand ambassador?*

Creating brand awareness can be done in different ways. I like to think about unique collaborations and of course I try to visit all our customers and introduce myself. The pre-introduction was done through an email to all our clients. With a dose of unbridled enthusiasm and a suitcase well filled with a selection of Doc Johnson products, I then hit the road.

04 *Are there certain values or principles that guide your professional behavior and how are they reflected in your work as a brand ambassador?*

Sincere attention to each customer. All clients are equally important and deserve personal attention. No judging and listening carefully to the wishes and needs of the customers.

05 *Will you be present at upcoming events?*

It will take a while, but in May I will be present at EroSpain every day. I am looking forward to meeting our customers in person. You can find us at booth 300.

06 *What hobbies or interests do you have outside of your professional activities?*

To unwind, I like to be on the golf course. A few hours in the open air to clear my head. I also like to be in the kitchen trying new recipes and cooking for my friends.

“I LIKE TO THINK ABOUT UNIQUE COLLABORATIONS AND OF COURSE I TRY TO VISIT ALL OUR CUSTOMERS AND INTRODUCE MYSELF.”

BISEXUALITY: WOMEN COMMUNICATE MORE OPENLY AS MEN

Bisexuals have a greater choice of potential partners. Supposedly. This is because some differentiate between sexual attraction and love in the air when choosing a partner, depending on their gender. What does this mean for bi women and bi men and what role does coming out play in this? A recent member survey by the erotic community JOYclub provides the answers.

Bi happy – bisexual men have multi-gender sex

The majority of bisexual respondents feel it is important to differentiate between sexual and romantic attraction. When asked which gender they feel sexually attracted to, it was revealed that bi men in particular are multi-gender orientated. In addition to women and their own gender, 50.8 % are attracted to trans women, 30.8 % to trans men and 29.6 % to non-binary people. Bi women, on the other hand, are more strongly bisexual.

Bi romantic – Every fourth bisexual affirms

Around a quarter of respondents stated that they were bisexual and biromantic – more women (28.3 %) than men (25.1 %). For a

The JOYclub survey analyzes the responses of 731 female and male members who stated “bisexual” as their sexual attraction and also affirmed that they differentiate between romantic and sexual attraction

potential romantic relationship, the majority only feel attracted to the opposite sex and therefore describe themselves as heteroromantic. A 44-year-old bisexual and heteroromantic man reports misunderstandings: “A relationship with the same sex is possible for me, but more as a friendship plus. I can only imagine a romantic, i.e. a love relationship, with the opposite sex. However, there are no differences for me when it comes to sex; caressing and kissing are always part of it. But for many people, this is synonymous with romance and love.”

Bi bold, bi you – “Bisexuality is a gift”

Many bisexuals are still confronted with prejudices. Every second bisexual receives mixed reactions to coming out, with more positive responses from bi women than bi men. This is probably why bi men are more reserved in their communication. 9.3 % are open about their attraction compared to 29.7 % of the bi women surveyed. The JOYclub database also revealed that men communicate their mutual interest more frequently as they get older. “Men are also under social pressure to fulfil deeply internalized conservative role models, which are still reflected in the

media’s portrayal of masculinity and are often only overcome with age,” explains bi activist Nadine Primo. She wants to empower people in their sexuality and encourages: “Bisexuality is a gift and a chance to enjoy diverse love.”

Pan- and bisexuality

In JOYclub’s self-produced sex education course, bi activist Nadine Primo explains the differences and similarities between pan and bi, dispels clichés and gives advice on personal sexual development. More about the free course can be found online at the JOYclub website.

The JOYclub Survey

The data was collected on JOYclub.de from 29 January to 5 February 2024. For this publication, the responses of 731 female and male members who stated “bisexual” as their sexual attraction and also affirmed that they differentiate between romantic and sexual attraction were analyzed.

About Motorbunny

Motorbunny was created out of restless curiosity and sheer frustration. After spending months looking for a sex machine that made use of connective technology and didn't cost a fortune, it was clear that a lack of competition in the category meant a lack of innovation and disturbingly sparse options. The Motorbunny founders set out to fill a major hole in the industry, and in 2015 Motorbunny was introduced as the world's first wireless Bluetooth and long-distance controlled sex machine. Motorbunny exists to make sexually creative experiences more accessible, and is one of the most powerful saddle-style

vibrators available. Designed to be used by anyone, Motorbunny is the only rideable vibe that offers attachments for any gender, and it has earned a reputation for innovation as the first vibe to release a companion app for wireless control with Motorbunny LINK technology. While considerable research and development is devoted to physical products, Motorbunny invests tremendous time and resources to the smart device experiences that set Motorbunny apart from other sex machines. The luxury vibrator is available online at Instagram, Twitter, YouTube, Facebook, and Motorbunny.com.

ORION Wholesale:

NEW PLEASURE DISPENSERS FROM SWEET SMILE

The lifestyle design of the sex toys from Sweet Smile inspires love. Two new pleasure dispensers have now been added to Sweet Smile's extensive sex toy range.

“RC Panty Vibrator”

The lightweight and extremely quiet “RC Panty Vibrator” (Item No. 54025220000) delivers intense fun when worn in panties, where it can be attached without slipping thanks to its small, strong magnet. Made from soft silicone, it moulds perfectly to the anatomy with its two textured mounds and stimulates the clitoris and vulva in a targeted and intense way – completely discreetly any time and anywhere. The ten vibration modes can be easily controlled with the remote control. With a range of 8 metres, it can also be controlled by a partner for surprise and control games. The vibrations can also be controlled directly on the panty vibrator at the touch of a button – turning it into an amazing lay-on vibrator. The “RC Panty Vibrator” can be recharged with the included USB cable and batteries for the remote control are also included.

“RC Hands-free Vibrator”

The “RC Hands-free Vibrator” (Item No. 54025140000) is the all-rounder for intense dual stimulation of the vagina and clitoris or anus and vulva. The highly flexible, ergo-

nomic double-arm design adapts perfectly to the body and movements – for maximum stimulation and a comfortable feel. Two quiet motors discreetly provide 10 vibration modes in each arm to intensively pamper both internally and externally at the same time. The varied modes can be controlled with the remote control, but the vibrations can also be controlled directly on the toy at the touch of a button. The handy, silky soft double vibrator is easy to insert with its gently grooved shaft. The widened head targets the vaginal G-spot. The textured vibrating arm is also perfectly shaped, with a soft bulge that nestles perfectly against the clitoris or vulva lips. The “RC Hands-free Vibrator” is also rechargeable with the included USB cable, the batteries for the remote control are also included.

Packaging

The Sweet Smile sex toys come in cardboard packaging with multi-lingual pro-

duct descriptions. Thanks to the practical magnetic closure, the front of the packaging is easy to open and close, behind which the sex toy is placed in an environmentally friendly cardboard tray for viewing. Plastic has been avoided as far as possible for the sake of the environment. The only use of plastic is as hygienic protection in the form

of a small insert that is not glued to the box. This makes it easy to separate the cardboard from the plastic. The packaging can be stood upright or hung in the centre. As they are very compact, several items can be presented on one sales floor and storage is also space-saving.

This thong is outfitted with an elasticized C-ring sporting a tiny tuxedo complete with tails and a bow tie. WICKED JELLE PLUS AVAILABLE AT TONGA

Jelle Plus is designed for ultimate anal comfort and pleasure. Users will enjoy Wicked's signature thick anal gel that is enhanced with natural ingredients: aloe, arnica, vitamin E, jojoba, and clove extract providing a superior anal experience.

Jelle Plus is a safer alternative to using numbing agents for anal play. As you may already know, lube is both essential and necessary for anal play since our bodies don't self-lubricate there. At Wicked Sensual Care, the team knows numbing agents can be dangerous when used during anal play – pain is a signal from our body indicating something is wrong, that we should stop or at the very least slow down. Wicked Sensual Care created Jelle Plus with natural relaxants and other

beneficial ingredients to give your customers safer options for anal play and to increase their pleasure at the same time. Inspired by Wicked's best-selling Anal Jelle, Jelle Plus has its own unique formula featuring clove oil and jojoba as natural relaxants; arnica, aloe, juniper, and vitamin E to soothe; and the signature olive leaf extract for extra protection. The new Wicked Jelle Plus is available in 120 ml and 240 ml tubes at Tonga BV.

Features at a glance:

- Thick water based
- Natural anal relaxants
- No harmful numbing agents
- No parabens, glycerin or propylene glycol
- Latex friendly and safe for all toy materials

Vol + Up

Lifting Effect Cream
for Breasts and Buttocks

What Vol+Up does?

Formulated with 2% of Adifyline™ peptide, Vol+Up delivers progressive lifting effect and volume increase of breasts and buttocks in 14, 28 and 56 days.

What Adifyline™ peptide is?

Adipocytes, also known as lipocytes and fat cells, are the cells that primarily compose adipose tissue, specialized in storing energy as fat. Adipose tissue has an essential role to define breast and buttocks shape and size.

Adifyline™ peptide is a hexapeptide that targets specific areas of the face and body which are vulnerable to the force of gravity and the deterioration with age. Ability to increase fatty tissue volume beneath the skin to obtain volume and curves where necessary - and desired.

Mechanism of action

It stimulates PGC-1 alpha enhancing adipogenesis rate, and promotes lipid accumulation in the adipose tissue of targeted areas, increasing volume locally. Breast and buttocks size increase are noticed in only 28 days. Firmer, fuller, and more uplifted appearance in 8 weeks.
